Sponsored by the Orthopedic and Neurologic Physical Therapy Residency programs at A.T. Still University, Department of Physical Therapy

Course description and objectives

This program is designed primarily for people interested in or involved with clinical education (clinical instructors [CIs], center coordinators of clinical education [CCCEs], academic coordinators of clinical education [ACCEs]) and is recognized by APTA as a Clinical Instructor (CI) Education and Credentialing Program.

The program addresses issues of:

- preparing for physical therapy students during their clinical education experiences
- developing learning experiences
- supporting ongoing learning through questioning and effective feedback
- developing skills of performance evaluation
- identifying and managing students with exceptional situations
- identifying legal implications for clinical educators, including issues presented by ADA legislation

Successful completion of this entire program (didactic and Assessment Center) earn physical therapists and physical therapist assistants APTA Clinical Instructor Credentialing.
