The Integration of New Technologies in Dentistry and Their Impact on Oral Health

Friday, October 30, 2015
8:30 a.m. – 11:30 a.m.
Tuition: $195
Audience: Dentists and Dental Hygienists
Location: 5850 E Still Circle Mesa, AZ
Saguaro B Room
Registration begins at 8:00 a.m.

Register online at www.atsu.edu/continuing-education/

Course Instructors: Dr. Tony Hashemian, DDS and Dr. Robert Levine, DDS

Course Description: This course will present information regarding a variety of technological applications to dentistry. Text2Floss and pH2OH are two mobile applications (“apps”) designed to facilitate oral health education. Participants will learn how these innovations can provide oral health education while engaging patients in their own well-being. Laser applications to clinical dentistry continue to expand. In addition to a review of basic laser science, use of lasers in postoperative tissue management and fluorescent technologies to support oral cancer screenings will be discussed.

Learning Objectives:
- Describe the relationships between salivary testing, oral pH, and oral infections.
- Discuss potential advantages for patient oral and systemic health provided by healthcare “apps”.
- Discuss research that supports the use of text-based health messaging.
- Explain advanced toothbrushing technology and techniques and how they can assist the dental professional in providing effective patient support and maintenance.
- Describe basic laser science and some applications to dentistry.
- Explain the components of a laser training program.
- Describe how laser science can assist with oral cancer screening.

Dr. Hashemian has no declared conflicts of interest
Dr. Levine is President of Global Laser Oral Health, LLC (GLOH).
Arizona School of Dentistry & Oral Health is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Arizona School of Dentistry & Oral Health designates this activity for 3 continuing education credits.
Meet the Instructors:

Dr. Tony Hashemian, DDS is an Assistant Professor at Arizona School of Dentistry & Oral Health (ASDOH), Associate Dean for Global Oral Health, and an international speaker. He is the developer of Text2Floss and pH2OH, two mobile applications designed to increase oral health awareness. Dr. Hashemian earned a B.A. in physiology from the University of Minnesota and is a graduate of Creighton University School of Dentistry. He has been in private practice since 1997. Dr. Hashemian is the 2012 recipient of the Health Care Leadership Award and named Dentist of the Year by Arizona Business magazine.

Dr. Robert Levine, DDS, is an Assistant Professor of Clinical Dentistry, Director of Laser Dentistry, and Clinical Director of the AEGD Post-Division from 2008-2012 at Arizona School of Dentistry & Oral Health. Dr. Levine is also the President of Global Laser Oral Health, LLC (GLOH). Dr. Levine graduated from N.Y. University and completed a two year residency at the VA Hospital in Brooklyn, NY. He remained as a consultant for many years and was in private practice in New York until 2005.
