Silver is the New Black:
Improving Your Practice with Silver Diamine Fluoride

Saturday, October 6, 2018
8:30am – 11:30am  3 CEU
Tuition: $65
Audience: All Dental Professionals
Location: A.T. Still University, 5850 E Still Circle

Visit the [ATSU Continuing Education](#) website to register!

You have likely heard the buzz surrounding silver diamine fluoride (SDF), but may not have read the abundance of scientific literature demonstrating how effective this product is at combating caries. Perhaps you have considered using SDF, but you’re not quite sure how to start. Learn from an early adopter of SDF how to successfully incorporate this powerful oral medicine into your practice. This session will walk you through the scientific evidence that helped earn SDF the prestigious FDA Breakthrough Therapy Designation. Learn the principles of case selection, informed consent, treatment planning, and a clinical protocol for SDF. See how to treat cavities in a quick, effective, and painless way using Silver Modified Atraumatic Restorative Technique (SMART). Discover how offering non-invasive options like SDF and SMART can attract new patients, improve patient satisfaction, and increase internal marketing and word of mouth referrals.

Learning Objectives:

- Describe the evidence for using SDF to treat and prevent dental caries
- Identify and dispel common misconceptions for SDF
- Describe the key talking points and patient education objectives for SDF
- Review informed consent and treatment planning for SDF and SMART
- Demonstrate proper documentation, coding, and billing for SDF and SMART
- Describe case selection, materials, and clinical protocol for SDF and SMART
- Demonstrate how to grow your practice by offering SDF and SMART

Meet the Instructor: Dr. Jeanette MacLean received her dental degree, with honors, from the University of Southern California in 2003 and completed her specialty training in pediatric dentistry in 2005. Dr. MacLean is an internationally recognized advocate for and expert on silver diamine fluoride, appearing in newspapers, magazines, television, and continuing education lectures on this hot topic. Dr. MacLean is a Diplomate of the American Board of Pediatric Dentistry, Fellow of the American Academy of Pediatric Dentistry, private practice owner, and mother of two.
General Information

Registration: All registrations are completed online and processed in the order in which they are received and as space permits. Registrations will not be processed without full payment. Registrations is available on the ATSU Continuing Education website.
